Adjustable tilt boat stand
ADJUSTABLE TILT CRADLE

"SISTEME
DE
CARENAGE"

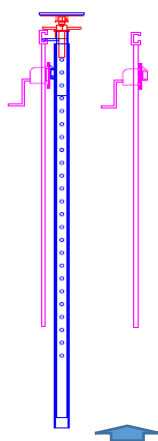

Cavalletto con inclinazione regolabile: E' il cavalletto ideale per tutti i tipi di barche a vela. Realizzato in portata certificata CE di Ton. 30 e in varie altezze. Grazie alla regolazione dell'inclinazione, che lo converte da verticale a inclinato a 40°, e al cappello con oscillazione a 360° piú raggiungere qualsiasi punto di taccaggio desiderato. Per le versioni piú alte una comoda scaletta sul dorso del cavalletto permette di raggiungere ed estendere il telescopio che, qualora pesante, può essere equipaggiato di estensore sia a comando manuale che elettrico. La possibilità di collegarle con barre di accoppiamento e catene con tenditori consentono di creare un **invaso** in estrema sicurezza. **Personalizzabile a richiesta.**

CIR Adjustable tilt boat stand: Perfect for any kind of sailing boat. It comes in various sizes and in CE approved working loads of 30Tons. Its adjustable tilt system (allowing an inclination of the stand from its vertical position to an angle of 40°) and the all-round swivel of its tilt head provide the full reaching of any desired spot. A small handy ladder placed on the back of the boat stand consents the reaching and the adjustment of the length of the telescoping pole. The boat stand can be equipped either with a crank or with an electronic extensor. Larger sized stands are perfect for small, medium and larger sized sailing boats, forming a highly safe cradle if tied together with steering tie bars and chains with tighteners. **Customized on request.**
